DETAILED ACTION

This office action is in response to the amendment filed May 22, 2006. In accordance with the amendment, claims 21, 27, and 36 have been amended, while claim 24 has been canceled. The amendments to the specification (ABS) and drawings have been acknowledged.

Claims 21-23, and 25-40 are pending.

Drawings

1. The drawings were received on May 22, 2006. These drawings are acknowledged.

Allowable Subject Matter

2. Claims 21-23, and 25-40 are allowed. The following is an examiner's statement of reasons for allowance: the relevant prior art of record does not teach or reasonably suggest the specific limitation of having *a CO₂ laser with an emission wavelength of 9.3 um +/- 0.4 um*. The closest prior art of record (Rivoallan et al. U.S.P. No. 4,802,729; DE 19722415 A1) teaches each claim limitation but the specific limitation as amended into independent claims 21 and 36. Also see Applicant's argument on page 8, lines 11-25 (response filed May 22, 2006), in which a persuasive argument is made as to why the prior art of record does not reasonably suggest this amended limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments, see arguments with remarks, filed May 22, 2006, with respect to the amendment of independent claims 21 and 36, have been fully considered and are persuasive. The rejections of claims 21-40 have been withdrawn.
